7. OLD BUSINESS:
   A. SORC Report: Dennis Feeley was absent; no SORC Report
   B. Water Tank Project: Keith Lynn reported that work on plumbing is continuing with emphasis on getting all piping installed to above the slab level. $6128 will be needed for concrete and rebar. We are waiting on a quote for pipe, fittings and electrical conduit and estimate this expense to be around $1000. Per Jackson County Planning, no permits will be needed for a structure up to 10’ x 12’ or the slab, however an electrical permit will be required. Chief Fuller reported that, in conjunction with electrical work on the shop which will be required for the Tank Project, we need to install a new sub-panel and conduit for the breathable air compressor. It will require a 40 Amp circuit.
   C. Apparatus Financing and Purchase Update: Chief Fuller and Steve Cosner visited the Braun NW factory, completed the specifications for the new rescue and were told it would be finished by mid-November. Chief Fuller stated that 6644 should be sold as we can no longer use it as a tender and the District has no further use for it. Larry Tuttle moved to authorize Chief Fuller to negotiate the sale of 6644. Keith Lynn seconded the motion which passed unanimously.

B. Public Contracting Policy: Chief Fuller presented a Public Contracting Regulations Policy which he had developed in conjunction with other Fire Districts and a letter from our attorney, Kenneth Jones, which included a second Public Contracting Policy and notice of the need for a public hearing before we adopt any such policy.
